SUMMARY

Full Stack Software Developer and Air Force Veteran, with experience in warehouse operations and safety/dispute management. My dedication to teamwork and problem-solving enables me to work effectively in fast-paced and dynamic environments. Through fostering an intense passion for learning and maintaining an unwavering determination to continuously improve my full-stack skills, consistently delivering efficient, streamlined, and scalable solutions.

TECHNICAL SKILLS

Languages/Technologies: Java, Spring MVC, Spring Boot, Hibernate, HTML, CSS, jQuery, JavaScript, React.js, Tailwind, Bootstrap, Git, Thymeleaf, Object Oriented Programming, MySQL, GraphQL, Apache Tomcat, Maven, J2EE, REST APIs.

Exposure to: Spring Framework and JUnit Testing

DEVELOPMENT PROJECT

PawsPursuit : [Repository](#)

PawsPursuit is an online platform committed to reuniting you with your beloved furry, feathery, or scaly companion. I designed and built the database using JPA and created controllers for seamless front-end-to-database communication. Using Spring Security I implemented a robust user authentication system and improved the platform's UX/UI for enhanced usability. Additionally, I integrated the Mapbox API for geolocation services and TalkJS for messaging functionality, enabling users to communicate and collaborate efficiently.

Environment: Java, JavaScript, HTML, CSS, Thymeleaf, Spring Boot, Spring Hibernate, Spring Security, Bootstrap, Mapbox API, TalkJS API

EXPERIENCE

Rymax LLC - Pine Brook, NJ

February 2022 – January 2023

Warehouse Associate

- Successfully managed and directed a team of 15 associates, achieving a 20% increase in productivity and meeting operational goals through effective organization and workflow
- Trained and onboarded newly hired associates in packing and shipping processes, resulting in a 15% improvement in efficiency and a 10% increase in order fulfillment accuracy
- Operated forklifts and order pickers to execute customer orders, ensuring timely fulfillment of requests with an average turnaround time of 24 hours

Amazon Fulfillment Center - Oklahoma City, OK

September 2019 – December 2021

ICQA Associate

- Developed and trained new hires as an ICQA Ambassador, contributing to a 25% reduction in onboarding time and ensuring consistent standards of performance were met across the team
- Conducted thorough inventory Q/A checks throughout the primary fulfillment warehouse in Oklahoma City, verifying virtual and physical inventory with a 99% accuracy rate and identifying and resolving defects promptly
- Analyzed inventory data and resolved discrepancies as an ICQA Problem Solver, utilizing mobile computer units to investigate and maintain accuracy in orders, shipments, and product quality, resulting in a 15% increase in overall productivity and improved customer satisfaction

Amazon Sort Center - Oklahoma City, OK

May 2018 – September 2019

Sort Associate

- Sorted an average of 2,500 incoming packages daily from fulfillment centers based on size, shape, and weight, ensuring accurate sorting and preparing shipments for timely delivery to customers
- Coordinated with associates daily, implemented process improvements that increased productivity by 10%, and optimized performance and efficiency in the workplace
- Safely loaded and secured an average of 50 pallets of customer packages onto shipping trucks daily, guaranteeing that all items were properly packaged and transported to their destination with zero reported incidents

United States Air Force

Security Forces - Tinker AFB, OK June 2011 – September 2014

- Collaborated with local, state, and federal law enforcement agencies as a Security Forces(SF) member in concurrent, reciprocal, and exclusive jurisdictions, ensuring the safety and security of individuals and properties within the designated areas for four years.
- Responded to and effectively managed security incidents, in-flight emergencies, and vehicular mishaps as a first responder, maintaining a rapid response time of under 5 minutes and mitigating risks to personnel and property.
- Provided area and convoy security during overseas assignments in Afghanistan, Kuwait, and the United Arab Emirates(UAE), contributing to successful battlefield operations and ensuring the safety of personnel and equipment in high-threat environments.
- Utilized advanced management software and state-of-the-art communications equipment to facilitate seamless operations between joint forces, resulting in efficient coordination and communication for mission success.

Ali Al Salem Air Base, Kuwait Deployment Date: February 2012 – November 2012

- Spearheaded 50 security patrols and access control measures, enhancing the base's security posture and readiness.
- Established strong partnerships with multinational forces and local authorities, strengthening base security and threat deterrence.
- Contributed to a 15% improvement in base security during the deployment through innovative security strategies and training.
- Provided vital assistance and maintained safety standards during emergencies and accidents, ensuring the well-being of personnel and resources.

Bagram Air Field, Afghanistan Deployment Date: March 2012 – October 2012

- Conducted and led over 200 security patrols and surveillance missions, ensuring the safety and well-being of over 500 personnel and assets.
- Collaborated with a diverse team and local military units to enforce security protocols and contribute to the overall mission success.
- Achieved a 25% reduction in security incidents during the deployment through proactive security measures and rapid response.

Al Dhafra Air Base, UAE Deployment Date: May 2013 – December 2013

- Led a team in conducting over 100 security patrols and surveillance missions, safeguarding the base and its personnel from potential threats.
- Collaborated seamlessly with international and interagency partners, facilitating a secure environment and mission success.
- Significantly contributed to a 10% reduction in security incidents during the deployment, enhancing overall safety.
- Demonstrated exceptional first responder capabilities by swiftly addressing security incidents, in-flight emergencies, and vehicular mishaps, ensuring the rapid protection of personnel and property.

EDUCATION

Codeup

Certification of Completion

January 2023 – June 2023

This 5-month coding boot camp teaches full-stack software development through 670 contact hours of hands-on technical training.
